Rules	Description
Fleet	A unit composed entirely of models with this special rule gains a bonus to all Run moves, any distance moved as part of a Reaction and as a modifier to all rolls made to determine Charge Distances equal to the value in brackets listed after the special rule. For example, a unit composed entirely of models with the Fleet (2) special rule would add +2 to all Run moves it makes, +2 to all distances moved as part of a Reaction and add a +2 modifier to any Charge Moves made. If a unit is composed entirely of models with this special rule, but the models have different versions of this special rule, then the unit must use the lowest Fleet value included in the unit (for example, a unit of ten models in which nine models have Fleet (2) and one model has Fleet (4) would use the Fleet (2) special rule).
Move Through Cover	A unit that contains only models with this special rule suffers no penalty for moving or charging through Difficult Terrain.
Twin-Linked	Re-roll failed to hit rolls
Armourbane (Melta)	Weapons with this special rule only gain the effects at half the maximum range of the weapon. Roll an additional D6 for AP when targeting a Vehicle or when targeting an Automata or Dreadnought Unit, re-roll all failed To Wound Rolls instead
Shred	Reroll failed To Wound rolls in close combat
