Rules	Description
Support Squad	A unit with this special rule may not be chosen as a compulsory choice for the army as part of the Force Organisation chart
Armourbane (Melta)	If a model or weapon has this special rule, it rolls an additional D6 for armour penetration when targeting a Vehicle model, or, when targeting a model with the Automata or Dreadnought Unit Type, re-rolls all failed rolls To Wound instead. These effects apply to both Shooting Attacks and close combat attacks. Some instances of the Armourbane special rule may include a qualifier after the rule in brackets, for example Armourbane (Melta) or Armourbane (Melee).
